

COST ACTION GREENERING – DATA COLLECTION

First name, Family Name: Diana, Lima

Type (Academic or Industrial): Academic

Country: Portugal

Leadership position in the COST: Participant on CA18224

Working Group in which you are involved: WG1

E-mail: diana.lima@ua.pt

Laboratory/Company: CESAM & Department of Chemistry, University of Aveiro

Laboratory/Company info (limited to 400 characters):

Centre for Environmental and Marine Studies (CESAM), an Associated Laboratory since 2005, is one of the research units of the University of Aveiro. The main objective of CESAM is to promote a more efficient use of terrestrial and aquatic environmental resources and a more competitive, resilient and sustainable economy, designed to endorse job creation and assure territorial and social cohesion.

Fields of expertise (limited to 400 characters):

- Development of low-cost methodologies for the quantification of organic contaminants in water matrices.
- Occurrence of organic pollutants in the environment (ground, surface and wastewaters).
- Persistence and fate of pharmaceuticals in the environment: photodegradation, adsorption, etc.
- Photodegradation as a remediation process for the removal of pharmaceuticals from water.
